- Educated in the most current medical protocols and therapies.
- Flexible and adaptable to change.
- Strong leadership skills.
- Strong analytical skills and able to assess conditions and implement solutions relating to complex illnesses.

Professional Experience

Guilford Hospital - Guilford, CT

2003 – Present

Head Nurse

Served as Head Nurse for critical care unit. Lead a staff of 35 registered nurses and 15 nurse's aids. Patient care for up to 50 patients that included complex medical tests, admissions and discharges, administering medication and patient and family counseling. Also lead a women's health and services group comprised of patients, nurses and doctors to disseminate critical preventative care and pre-natal care information as a service of Guilford Hospital.

St. Dominic's Medical Center - Boston, MA

1995 - 2003

Staff Nurse

Implemented care for up to 10 patients per hospital wing. Scheduled admissions for non-critical patients. Administered medications and conducted clinical tests according to hospital standards. Assisted patients and family members regarding healthcare needs. Assessed patient status and notified physicians of clinical changes.

Crescent Hill Hospital - Hartford, CT

1992 – 1995

Nurse's Aid

Provided quality care to patients. Administered insulin shots and basic blood testing. Performed administrative duties as required such as organizing confidential patient files and documenting nursing status check results. Assisted nursing staff in maternity wing with bathing, changing and feeding newborns.
